

# CAPSYLITE® G9 LAMPS

## Halogen Lamps

SYLVANIA CAPSYLITE® G9 lamps are the first line voltage halogen capsules that are suitable for use in unshielded fixtures.\*

The innovative CAPSYLITE G9 pinched quartz lamp structure eliminates arcing sources and creates a self-fusing lamp. It combines a bright, compact source with UV-Filter quartz, which means the CAPSYLITE G9 allows small, sleek fixtures to be designed without the need for expensive transformers and heavy glass shields.

The "G9" in CAPSYLITE G9 is the base designation. The new base is a simple snap in/pull out design that is perfect for getting lamps into and out of small fixtures.

The long life and energy efficiency of CAPSYLITE G9 lamps make them ideal for use in residential, commercial and industrial buildings.

### Key Features & Benefits

- 2000 hour average rated life
- UV Filter quartz
- Bright white, high quality halogen light
- 120 Volt operation
- May be operated in open fixtures\*
- Available with either clear or frosted finish
- Snap-in G9 base

ECOLOGIC® is a comprehensive program of OSRAM SYLVANIA focused on addressing environmental issues at all stages of lamp life.

### Product Family

Product	Wattages	Finish
CAPSYLITE G9	25	Clear
	40	Clear, Frosted
	60	Clear, Frosted

\* SYLVANIA does not require lamp containment shielding. Consult most recent UL standards for luminaire requirements.

### Application Information

#### Applications

- Small Aperture Down Lighting
- Residential and Commercial Applications
- Task Lighting

#### Application Notes

1. Lamp may be used in open fixtures
2. No additional fusing is necessary
3. Lamp may be burned in any position
4. UV stop quartz glass for protection of light sensitive materials
