

## SoCo LINE-VOLTAGE PENDANTS

Tech Lighting's new **SoCo** system of **Socket & Cords** delivers choice, flexibility and the power of custom design. We know bare lamps can be beautiful, and now we have made it easy to create your own unique look. Mix, match and cluster to create a truly unique light sculpture or just install a few at a time to put light exactly where you need it. Need help laying out a design? We can help. Perfect for residential and commercial applications.

### 1 CHOOSE YOUR FABRIC CORD COLOR AND LENGTH.

While we showcase seven standard colors options and three standard field-cutable cord lengths, the possibilities are almost limitless. Contact us for alternate colors and custom lengths or let us cut your cords to size so you save time during installation.

### 2 CHOOSE YOUR SOCKET AND FINISH.

Select between the modern or the vintage socket in your ideal finish – both are perfect for a wide array of design aesthetics. A four inch flush canopy in the matching metal finish ships standard with every pendant. Due to the diameter of the cord, SoCo pendants do not currently work with our T~TRAK system or our multi-port canopies.

### 3 CHOOSE YOUR LAMP TO COMPLETE THE LOOK.

Don't forget your lamps. The SoCo sockets accommodate virtually any medium base lamps up to 150 watts. We have made it easy to order some of the most popular lamps including several energy efficient LED and compact fluorescent options. Don't see what you are looking for here? Contact us for our full lamp offering.

### 4 MAKE YOUR SELECTION WITH THE ORDERING GRID.
